

This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims:**

- 1-45. (Canceled)
- 46. (Previously Presented) In an electronic card assembly, wherein the improvement comprises said electronic card assembly withstanding a rotating angle of greater than approximately  $10^{\circ}$  during a torque test which applies a torque of greater than approximately 1.2N-m, and wherein the electronic card assembly does not include a printed circuit board during the torque test.
- 47. (Previously Presented) The electronic card assembly according to claim 46, wherein said electronic card assembly can withstand a rotating angle of approximately  $12^{\circ}$ .
- 48. (Canceled).
- 49. (Canceled).
- 50. (Canceled).
- 51. (Canceled).
- 52. (Canceled).
- 53. (Canceled).
- 54. (New) The electronic card assembly according to claim 46, wherein during the torque test the torque is applied at least one time in a clockwise.
- 55. (New) The electronic card assembly according to claim 46, wherein during the torque test the torque is applied at least one time in a counter-clockwise direction.
- 56. (New) The electronic card assembly according to claim 46, wherein during the torque test the torque is applied for at least ten seconds.
- 57. (New) The electronic card assembly according to claim 46, wherein during the torque test the torque is applied for at least five minutes.
- 58. (New) The electronic card assembly according to claim 46, wherein the electronic card assembly comprises stainless steel having a thickness of 0.2 millimeters.
- 59. (New) The electronic card assembly according to claim 46, wherein during the electronic card assembly comprises two shields and two connectors.
